Trouble Outcome of Refusal of Ballot-Citizens Ready for a Night attack, But Have Issued a Flea for Troops-Battle Hearly Expected.

WICHITA, Kan., April 6.- The town of Lawton, Okla., is aroused over a race war which broke out there yesterday afternoon and which is now raging. This morning the negroes and whites engaged in a hand to hand battle, and as a result about forty negroes have been expelled from the city limits.

These negroes are heavily armed and will force their way back to their homes tonight, they claim. The negroes remaining in town have gathered in a body near the Rock Island tracks and are going to assist their friends.

The citizens of Lawton have asked for troops, claiming that the city police cannot handle the trouble. A number of citizens have volunteered as special of

The negroes are led by James Alexander, a blacksmith. He claims to have 300 of them are well armed and will file in at

Regarding the expulsion of forty negroes from Lawton by whites this morning, he said the negroes left because they
were not quite ready for fighting. He
claims to have had much difficulty in keeping them from attacking the whites Butchers, Clothing Dealers, and Small when Fitzgerald was injured.

Mobilized Near Fort Sill.

Fort Sill, which is but a short distance from Lawton, is being made the mobilizing point of the negroes tonight. They

are armed with Winchester rifles and are supplied with plenty of ammunition.

The white people have made ready for an attack and have an organization of about three hundred who will enter the battle. The trouble between the negroes commenced on April 1, when the negroes attempted to vote in the city election and

ous threats to drive negroes out of town. The negroes have found it hard to get work for months past, and this winter many of their number actually starved than leave the town where they made such a strong fight for entrance.
